

## A Commitment to Excellence

- We meet clients' needs and exceed their expectations through collaboration with other local professionals, advocacy, education, and exceptional in-home care.
- We are consistently rated as one of the top agencies in the region.
- Caregivers are trained through CareAcademy™, an online caregiver training site that advances caregiver knowledge.
- The art of our client/caregiver matching process has been refined over 30 years.

CareAcademy

## An Innovative, Holistic Approach with Proactive Assistance

Each person we serve is a unique individual, and deserves individualized care. We provide a holistic approach that supports, educates and coordinates the resources needed to live life independently, safely, and as fully as possible at home.

## Comprehensive, Collaborative, and Creative Care Solutions

Since 1984, At Home Independent Living, a local family-owned business, has been providing older and differently-abled individuals and their loved ones with customized care solutions and educational guidance to help them thrive at home. Some of our services include:

- Alzheimer's and dementia care
- Medication reminders
- Homemaking and meal preparation
- Respite care
- Companion care
- Care for adults with disabilities
- Sitter services at the hospital, nursing home or rehab facility
- Chaperoned transportation for appointments and outings
- Care management
- Remote care technology solutions
- And more

## Caring for Our Community

At Home Independent Living's owners, Dean and Kate Bellefeuille, have deep roots in central New York and are passionate about helping the community through:

- Involvement with the Elder Abuse Coalition and Adult Protective Services
- Supporting local chapters of the Alzheimer's and Parkinson's Disease Associations
- Educating families about making informed care decisions and funding options
- Networking with local businesses to support the individual needs of clients beyond caregiving
- Ensuring access to the highest quality care by hiring and training the best care professionals
- And much more

## Veteran's Program

Those who have served our country deserve our honor, respect, and support. Veterans and their spouses can receive help from our care team to obtain the Aid and Attendance benefits that help provide the care and assistance they need in the comfort of home.

## Expanding Your Care Options Beyond Caregiving

Our team's collaborative approach includes preparing the home, family and client to begin care at home. This combines practical and technological options to address needs beyond basic caregiving including:

- Solutions such as lock boxes, grab bars, night lights, bed alarms, stove alarms and more.
- Technological additions such as installing cameras and motion sensors, medication dispensers, voice activated devices such as Google or Alexa, wearable personal emergency response systems (PERS).
- Advanced remote care options including Electronic Caregiver™, an innovative and cost-effective service that closes gaps in care when a caregiver is not present through 24/7 vitals monitoring, physician on-demand, appointment reminders, medication management, alerts to family and care team, and more.
