

# Health Support at Home and *On the Go*

**At Home Independent Living** is pleased to partner with **Electronic Caregiver™** to offer customized mobile health support systems to meet each person's individual needs.

**Electronic Caregiver™** is one of the fastest growing monitored technology providers in the U.S. and one of only a handful of nationwide service providers.

A pocket smart health device and emergency wrist pendant that allows for simple, one-touch support and telehealth, utilizing both Global Positioning Systems (GPS) and Cellular Based Location Services (CBS) to pinpoint the user's location to enhance safety at home and while out and about.

- 24/7 remote connection with a physician
- Monitored health and medication reminders
- FamilyCare app to keep families informed
- 24/7 emergency response

No long term contracts

# electronic caregiver<sup>®</sup> pro health

Advanced, around-the-clock remote patient monitoring with voice technology and other features that allow health care providers to improve treatment adherence and proactively monitor health.

- Features a physician on-demand, monitored medication management and 24/7 vitals monitoring
- Connected devices to monitor key vitals and health indicators, alerting doctors, family members and the care team in real time
- Interactive health screening and assessment management
- Critical activity monitor
- Electronic reminders to take medications, follow through on treatment tests (blood pressure or blood sugar), or important recurring appointments
